DID YOU KNOW...

SITUATIONAL AWARENESS

Situational Awareness means paying attention and being aware of what's going on around you, having the ability to Identify, Process, Comprehend, and Respond to.

https://www.youtube.com/watch?v=MYEAQG62pYA

IDENTIFY

Identify critical elements of information.

PROCESS

Process critical elements of information by training, have it programed within your mind of what could happen.

COMPREHEND

Comprehend the critical elements of information by identifying what is ACTUALLY happening.

RESPOND TO

How are you going to respond to the different information? Top priority is always Safety.
