DID YOU KNOW...

49% OF DIRECT FATALITIES ATRRIBUTED TO HURRICANES ARE ATTRIBUTED TO STORM SURGE

Being prepared for a hurricane can save lives. Remember, if notified to evacuate, **LEAVE!**

KNOW YOUR RISK

Is your area flood prone?
Do you live in an evacuation zone?
Any structural risks in your home?
Do your research!

CHECK ON YOUR HOME

Consider getting an insurance checkup and documenting your possessions. Know your hurricane deductible!

PREPARE DISASTER KIT

Stock up for at least 3 days! Essentials include non-perishable food, water, medicine, flashlights, and solar-powered USB charger!

DEVELOP EVACUATION PLAN

Where and how do you get to your safe location? Plan several routes, some might be compromised during the storm!
