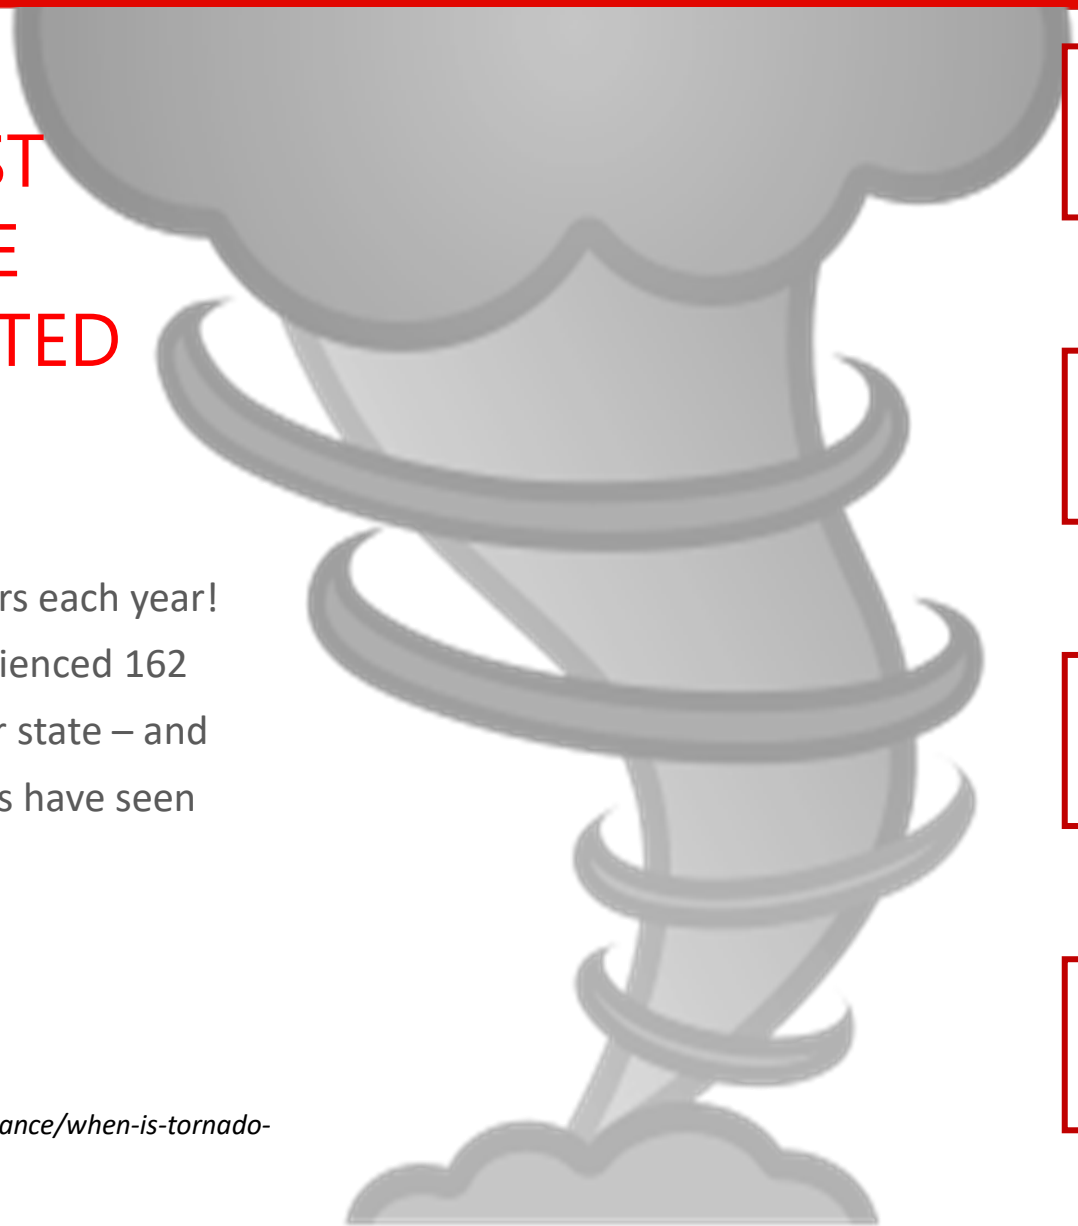
DID YOU KNOW...

TEXAS IS THE MOST TORNADO-PRONE STATE IN THE UNITED STATES.

Texas averages roughly 137 twisters each year! In 2025, the Lone Star State experienced 162 tornadoes – the most of any other state – and so far in May 2026, Texas residents have seen 20 tornadoes make landfall.



GET IN

Seek shelter in a windowless interior room on the lowest level of your house.

GET DOWN

Stay in the center of the room and away from corners which attract debris.

COVER UP

Use your arms to protect your head and neck from injury. Also cover your face to protect against debris.

ALL CLEAR

Remain inside your home until the storm has passed.
